2.4-liter VN Turbo Diesel with Inter Cooler
Max. output: 110kw (150hp)/3400rpm

with automatically brake assisting to avoid risk and damage of car crash. Radar will detect the car in front and alert the driver

LANE DEPARTURE ALERT WITH YAW ASSIST FUNCTION

When driving out of lane without turning signal on or unintentional lane departure, the signal will be displayed on MID screen and automatically turn back the steering wheel.
