UTILITIES

Authentic presence: Tough meets gorgeous.

The bold design embodies functional beauty, blending advanced ergonomics, intuitive operation and refined features to provide a truly engaging driving experience.

* Before pushing the engine switch, depress the brake and clutch pedals on manual transmission models. The mechanical key is built into the Electronic Key. Electronic Key caution: Radio waves may affect electric medical devices. Individuals with devices including cardiac pacemaker implants should keep them from coming close to the Smart Entry & Start System antennas. The transmission of radio waves can be disabled. Please inquire at your local dealer for details. Note: Please inquire at your local dealer for details on the availability of features.

Combination meters:

The easy-to-read meters and a 4.2-inch color TFT (Thin Film Transistor) multi-information display provide the driver with vital vehicle information at a glance. An Eco Driving Indicator supports eco driving.

Steering wheel switches:

The 4-direction switch integrated in the steering wheel makes it easy to adjust the multi-information display among other functions.

Smart Entry & Start System:

When carrying the Electronic Key, the doors can be locked/unlocked by simply pushing the front door handle switch, and the car can be started by simply depressing the brake pedal and pushing the engine switch.*

Center cluster switches:

A focus on functionality positions driving switches in easy reach, contributing to a relaxed and confident feeling of driving control.

INTERIOR

Elegant comfort: Space you'll love to share.

Quality details enrich the quiet ride and spacious comfort of the cabin, creating a sophisticated environment for your driving pleasure.

Audio system:

The speakers are strategically positioned to provide excellent sound in all seats. The large touch-screen display enables easy touch operation of switches and controls.

USB/mini-jack:

Enables a portable music player to be connected and enjoyed over the vehicle's speakers.

Auto air conditioner:

The highly efficient system maintains a comfortable cabin temperature, and at the same time contributes to the excellent fuel economy.

Rear auto air conditioner:

Vents in the ceiling above the second and third row seats ensure excellent cooling. The control panel in the ceiling above the second row seats enables convenient operation.

A SLEEK & POWERFUL BLACK INTERIOR

Front seats:

The sporty shape with firm sides to provide excellent hold when driving is complemented by the comfortable length of the seat cushion.

6-SPEED TRANSMISSION:

The gear ratios were optimized to help maximize the engine's potential, with excellent low speed torque and outstanding fuel economy.

SUSPENSION/BRAKES:

The front and rear suspension is optimized to provide excellent stability and control. Front and rear disc brakes contribute to sure stopping performance.

DRIVE MODE SWITCH:

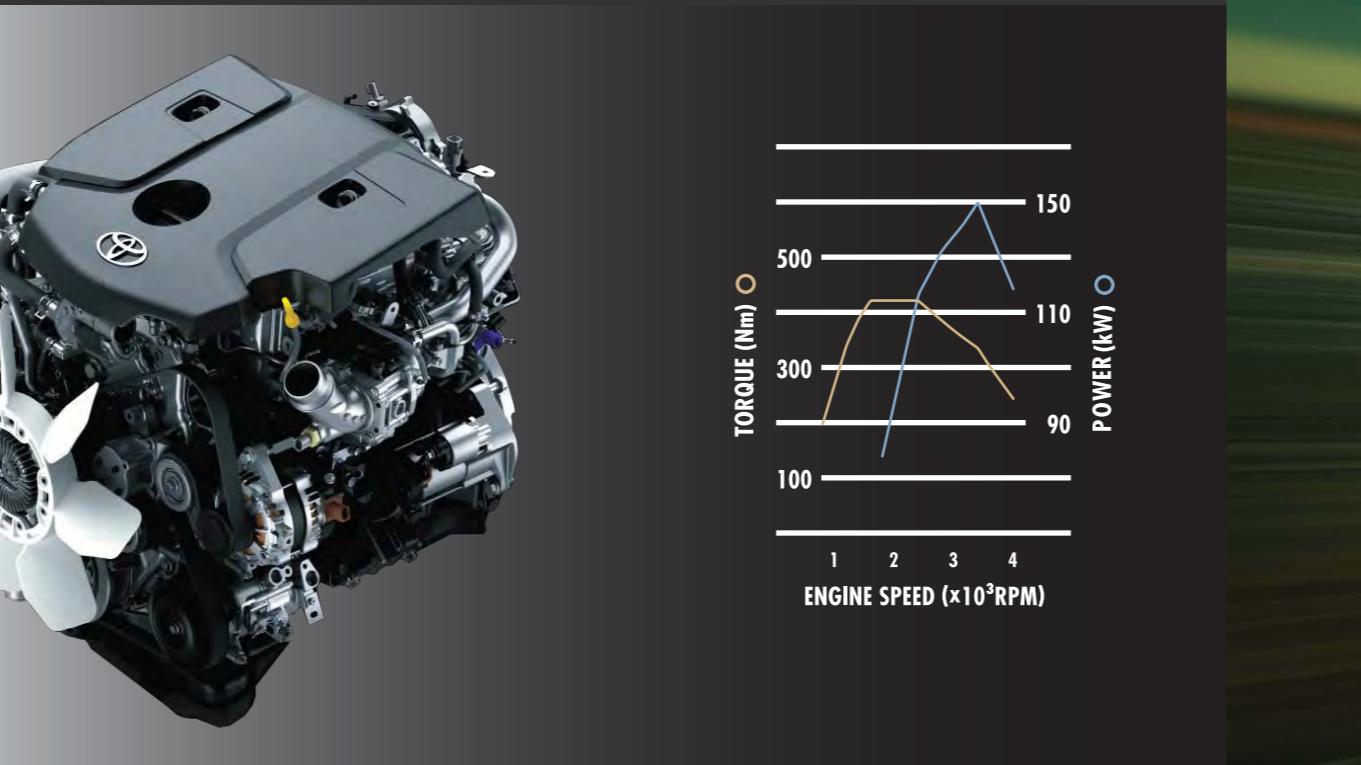

Allows the driver to select between Eco Mode to help optimize economy and Sport Mode to optimize acceleration and steering feel to suit the driving conditions.

DYNAMIC PERFORMANCE:

Exhilarating Power Deepens Driving Pleasure.

Powerful acceleration and outstanding handling that actively feed your desire for driving excitement on the road are balanced by excellent fuel efficiency.

1GD-FTV (High)
2.8-liter VN Turbo

TORQUE AND POWER

- 150kW (204ps) 3400rpm (Automatic transmission)
- 500Nm/1600-2800rpm (Automatic transmission)

Note: Please inquire at your local dealer for details on the availability of features.

“REFINED DRIVING EXPERIENCE”

New / **GD SUPER POWER**

ROBUST TO THE CORE: ONLY A TRUE SUV CAN INSPIRE OFF-ROAD ADVENTURES.

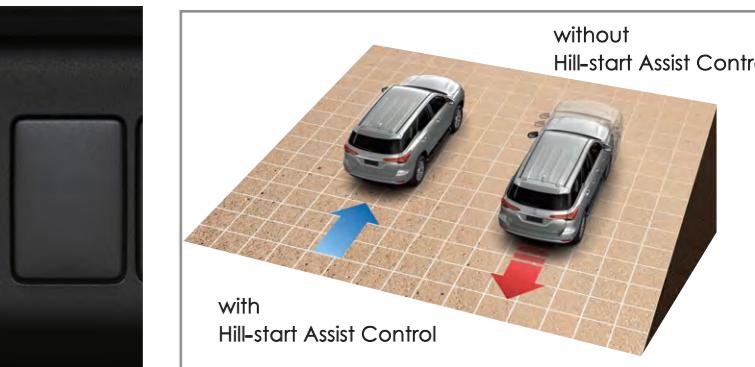

Beneath the sophistication, the robust frame and advanced off-road driving technologies form the core of the outstanding rough terrain capabilities.

PART-TIME TRANSFER:

Highlighting driver-friendly operation, you can switch between 2WD and 4WD by simply turning the dial switch, even while moving.

HILL-START ASSIST CONTROL:

Helps to prevent the vehicle from rolling backward when starting on a steep or slippery incline.*

FRAME STRUCTURE:

The high rigidity structure contributes to exceptional toughness in harsh environments, as well as excellent handling performance, a quiet smooth ride and reassuring feeling of safety.

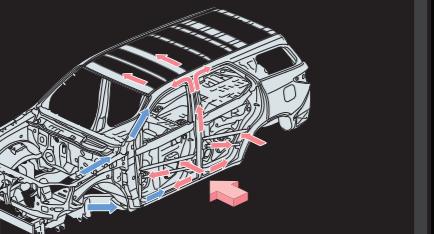

* The system may not operate properly depending on road conditions or other factors. Be sure to read the Owner's Manual carefully.
Note: Please inquire at your local dealer for details on the availability of features.

Hill-start Assist Control

SAFETY

PEACE OF MIND: REASSURING STRENGTH AND RELIABILITY.

Combining the strength and reliability of a true SUV with advanced active and passive safety measures contributes to peace of mind, on-road and off-road.

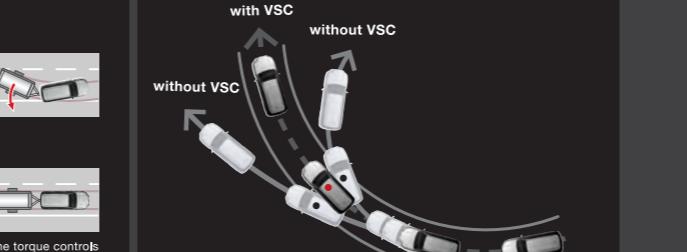

CRASH SAFETY BODY:

Comprised of a high integrity cabin with front and rear crumple zones that help absorb impact energy in a collision.

ABS WITH EBD:

ABS helps to prevent the wheels from locking up when braking on slippery roads, or during sudden braking. EBD optimizes the distribution of braking force in various driving conditions.*3

TRAILER SWAY CONTROL

When towing a trailer, the system detects trailer sway and helps to suppress it by controlling braking and engine output.*3

VSC

Helps prevent front or rear wheel slip while cornering by reducing engine power and applying brake force to the wheels that require it.*3

CLEARANCE SONAR:

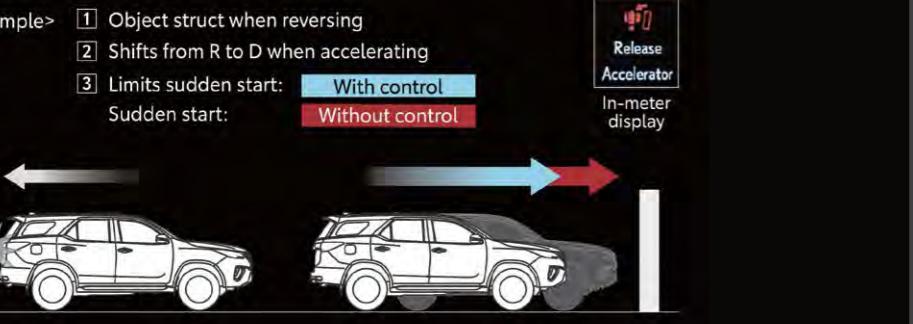

A total of 6 sonars detect stationary object near the front and rear bumpers and alert the driver to take care.

BODY STRUCTURE

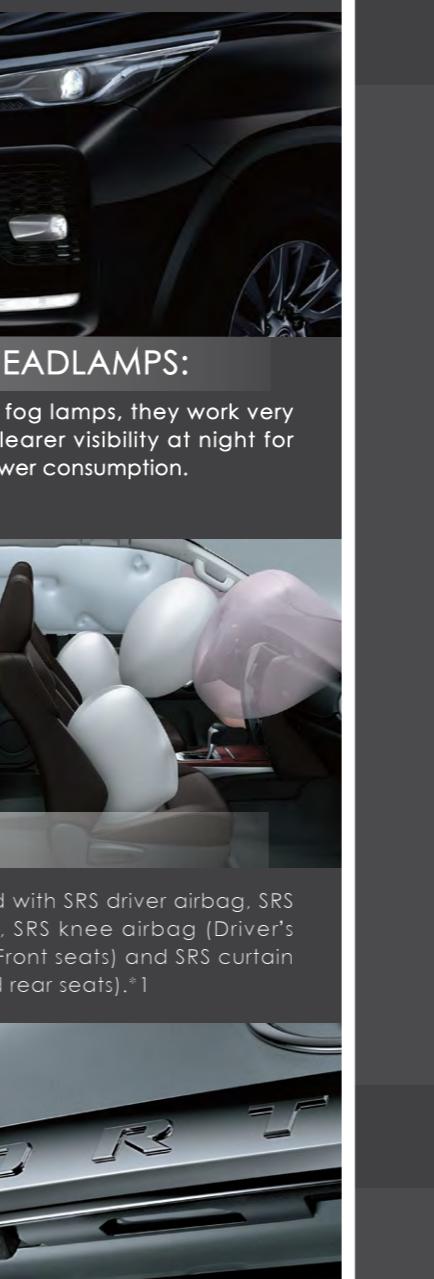

help reduce injury to pedestrians: Impact absorbing measures include the front bumper, hood, cowl and front fender brackets.

DRIVE-START CONTROL

Drive-start Control: If an abnormal shift (R->D, D->R, N->R, P->D, P->R) is detected while accelerating, a warning is displayed in the meter display and engine output is reduced to limit the acceleration, helping to avoid a collision.

*1 The SRS (Supplemental Restraint System) airbags are supplemental devices to be used with the seatbelts. The driver and all passengers in the vehicle must wear their seatbelts properly at all times. Never install a rear-facing CRS (Child Restraint System) on the front passenger's seat. For a forward-facing CRS, it is recommended you use it in the second row seats. Please do not use accessories for the seats which cover the parts where the SRS side airbags should inflate. Such accessories may prevent the SRS side airbags from activating correctly, causing serious injury (Toyota genuine seat covers are specifically designed for models equipped with the SRS side airbags. To find out about availability in your area, please inquire at your local dealer). The photo shows all the SRS airbags activated for display purposes only (the SRS side and curtain shield airbags only inflate on the side of the collision in an actual accident). For details on these and other important safety features, be sure to read the Owner's Manual carefully. *2 The back monitor shows a limited area. To help ensure safety, be sure to look at your surroundings before you proceed. *3 ABS: Anti-lock Brake System. EBD: Electronic Brake force Distribution. VSC: Vehicle Stability Control. The system may not operate properly depending on road conditions or other factors. Be sure to read the Owner's Manual carefully. Note: Please inquire at your local dealer for details on the availability of features.

LED LOW BEAM HEADLAMPS:

CONVENIENCE

Exceptional convenience: Complement your active lifestyle.

Versatile seating arrangements and an abundance of storage spaces quickly and easily accommodate the changing demands of a mobile lifestyle.

SECOND ROW SEAT STORAGE:

Integrated in the back of the center console box, it includes a convenient DC-12V power outlet for charging various electric devices.

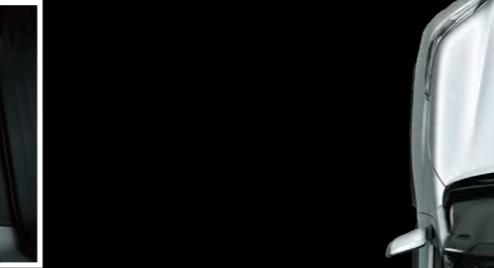

CENTER ARMREST:

The comfortable armrest in the second row seats integrates handy push-open cupholders in the front.

CENTER CONSOLE BOX:

Can store 22 CDs. The lid can also be used as a large armrest.

BOTTLE HOLDERS:

For the front and second row seats, they are built into the trim of the front and rear doors, and into the quarter trim on both sides for the third row seats.

UPPER BOX:

This convenient box features integrated air conditioning vents to keep drinks stored inside cool or warm.

LUGGAGE SPACE STORAGE:

Located in the side of the luggage space, this handy storage provides easy access to tools and gear.

OVERHEAD CONSOLE STORAGE:

Located between the two sunvisors, it provides a space for storing small items and sunglasses.

SEATING ARRANGEMENT:

The spacious cabin can be quickly rearranged to accommodate changing combinations of people and gear. A one-touch tumble function on the second row seats provides easy access to the third row seats. To expand the luggage space to accommodate big or long loads, the second row seats tumble fold and a space-up function on the third row seats enables them to be folded and stored away using easy-to-reach fixed hooks.
