GAWA NG PILIPINO PARA SA PAG-UNLAD NG MGA PILIPINO

To our loyal Toyota customers,

You have waited for this for so long. This 2025, a true road icon returns to once again champion mobility for all Filipinos!

It is our honor to introduce the Next Generation Tamaraw! A tough and reliable companion that changed the lives of many, the Tamaraw will once again be enabling Filipinos to triumph over the challenges of today.

Whether for business or family use, the Next Generation Tamaraw promises to move you closer to what matters most.

We thank you for sharing our excitement for the Next Generation Tamaraw. Keep in touch with your dealer for updates, and we hope you can be among the first to own this vehicle, which we are very proud to bring back.

We wish you more of life's wins—big and small. Maraming salamat po!

Masando Hashimoto

President, Toyota Motor Philippines

Introducing the
NEXT GENERATION
TAMARAW

Next Generation
TAMARAW

The Tamaraw is more than just a vehicle.
It's an icon. A legacy.
And now, its next generation is here.
In different forms. For different dreams.
Ready to move us forward.

May maaasahang tibay, lakas,
diskarte, at porma ang bagong Tamaraw.
Built with modern designs and amazing features.
Kaya kasangga ng Pilipino sa buhay at kabuhayan.

Ito ay proudly Made in the Philippines,
Made for the Filipinos.
Here to transform our lives, our roads, our industry.

Sasakyan ng bayan.
Totoong kampeon.
Nagbabalik na bida.
Anuman ang tawag natin sa
Next Generation Tamaraw,
malayo ang mararating natin dito.

**Handa nang sumabak ang
Next Generation Tamaraw!
Ikaw, handa ka na ba?**

Tara! Abante, Possible!

Abante, Possible sa tunay na palaban!

Sa Next Generation Tamaraw, may variant o conversion na makakasagot sa mga pangangailangan mo.

Anumang porma o anyo, makasisiguro kang expertly developed ito para may lakas, tibay, at diskarte na bagay na katuwang sa buhay at negosyo.

Abante, Possible sa subok na pangmatagal!

Alam ng Toyota na mahalaga sa iyong negosyo at lalo na sa pamilya ang sasakyang magtatagal ng mahabang panahon.

Hindi lang matatag, maaasahan din. May effortless power, superior payload capacity, at maluwag na cabin.

Ito ay may up to 1,100 kgs payload capacity rating at superior torque kasama ng 2GD-FTV engine.

Vehicle shown is modified. Inquire at your dealer to know more.

Abante, Possible! Panalo ka dito!

Kasama mo ang Next Generation Tamaraw sa pag-level up ng buhay mo at ng buong pamilya.

Bukod sa taglay na diskarte at lakas, komportable rin ang lahat ng gagamit ng Next Generation Tamaraw gaano man kahaba ang biyafe.

Para naman sa mga driver, mas pinadali rin ang maneuverability nito para effortless ang pagmaneho kahit sa makikitid na daan.

Ito ang mga dapat mong malaman:

*compared to cabover pickup

 Mas madaling pag-maneuver (competitive turning radius)

 Superior forward visibility, mataas na eye point

 Better deck length to overall length ratio

 Mas madaling pumasok at lumabas ng sasakyang

 Mas malaki ang cabin space

 Mas safe ang cargo dahil sa bonnet

 Mas tahimik ang cabin

 Hindi gaanong mararamdaman ang mga lubak sa kalsada—swabe ang drive!

 Superior powertrain access para sa maintenance o pagpapaayos

 Mas mababang center of gravity para sa improved stability

 Superior aerodynamics at fuel efficiency

 Mas maraming pwedeng i-customize sa loob ng sasakyang —mas madaling ma-meet ang mga kailangan mo para maging panalo sa buhay!

Conventional (Bonnet) Dropside

Other Cabover Dropside

Bagay sa 'yong kabuhayan

Iba't ibang posibilidad tungo sa panalong inaasam mo! Maraming conversions ang Next Generation Tamaraw para umangkop sa iyong tuluy-tuloy na pag-angat.

TAMARAW: A SYMBOL OF THE PHILIPPINES

WHAT IS THE TAMARAW?

The tamaraw is the largest wild land mammal in the Philippines. Its scientific name is *Bubalus mindorensis*. It is also known as the 'Mindoro Dwarf Buffalo'. The tamaraw can only be found in the Philippines and it is endemic to Mindoro Island. Its natural habitat is tropical savanna grasslands and forests. Its diet includes wild sugarcane. The Tamaraw was first discovered and documented in 1888. From an estimated population of 10,000 in the 1900s, to less than 100 in the 1960s, the tamaraw was declared an endangered species by the IUCN in 1986, and critically endangered in 2000. The introduction of cattle farming in Mindoro, a devastating Rinderpest outbreak (otherwise known as cattle plague) in the 1930s, the loss of its natural habitat, and illegal poaching, are the main reasons for this troubling situation. As of May 2024 the current estimated population of the tamaraw is between 574 and 610.

WHAT ARE THE DIFFERENCES BETWEEN A TAMARAW AND A CARABAO?

The Tamaraw is often confused with the domesticated carabao because both belong to the Bovidae family, but here are their differences:

- The Tamaraw has more hair than the carabao.
- The Tamaraw has distinct markings on its face, has light eyebrows, is darker than a carabao, and has a shorter tail.
- The tamaraw is also smaller, with an average height of 4ft and weighing 180kg to 300kg. The carabao is much bigger.
- The tamaraw's horns form a distinct 'V' shape. A carabao's horns form a 'C' or half-moon shape.
- Tamaraw horns average 14in to 20in, while carabao horns average 24in to 60in.

WHAT IS THE INTERNATIONAL UNION FOR CONSERVATION OF NATURE (IUCN)?

Established in 1964, the IUCN's 'Red List of Threatened Species' has evolved to become the world's most comprehensive information source on the global extinction risk status of animal species.

THE TAMARAW CONSERVATION PROGRAM (TCP)

The Tamaraw Conservation Program (TCP) was established in 1979 as a special project under the Office of the President to protect and conserve the remaining tamaraws that inhabit Mindoro. It was later transferred to the Philippine Department of Environment and Natural Resources (DENR) in 1987. The TCP's goal is to grow the population to more than 2,000 and remove the tamaraw from the IUCN's critically endangered species list.

WHO ARE THE BANTAY TAMARAW?

These individuals are hired under contract of service by the TCP. They diligently patrol protected areas in Mindoro to ensure that the tamaraw's natural habitat is protected, the population numbers are monitored, and to deter any illegal poaching. There are also indigenous peoples volunteers known as 'Katutubong Bantay Tamaraw' and barangay volunteers aptly called 'Barangay Bantay Tamaraw'.

TOYOTA MOTOR PHILIPPINES AND THE TAMARAW

The Toyota Tamaraw paved the way for the enormous success of the segment that it also created—the Asian Utility Vehicle (AUV). Through the decades the Tamaraw has been a massive seller known for its toughness, reliability, and iconic status.

In 2024, the made-in-the Philippines Tamaraw badge returns. To celebrate this milestone, Toyota Motor Philippines has committed its support to the noble efforts of the Tamaraw Conservation Program.

*Data from Mindoro Biodiversity Conservation Foundation Incorporated and DENR-Tamaraw Conservation Program
